through diligence and perseverance.**

About MCI.

MCI Company for Metal And Plastic Caps Industry , a company that started its activity in 1993 in Syria in the field of medicines and auxiliary materials in the pharmaceutical industry (raw materials, containers, stoppers, closures, etc.).

In 2011, the company began developing and expanding plans, and the choice fell on the Arab Republic of Egypt, due to its attractive and distinctive investment climate through what the Egyptian government has provided, the size of the domestic market, and the large number of trade agreements with all countries of the world that help and open up distinctive foreign markets.

Our Factories

MCI owns four separate specialized factories:

Factory 1: Specializes in the production of aluminum Pilfer Proof Caps.

Factory 2: Specializes in the production of Flip-Off caps.

Factory 3: Specializes in the production of Oral Droppers and Plastic Pilfer Proof Caps.

Factory 4: Plastic injection plant, which supplies the rest of our factories.

Departments

Our company consists of six departments that work in harmony and complete coordination to implement the company's plans and vision.

1- General Management

2- Financial Management

3- Quality Assurance Management

4- Production Management

5- Sales Management

6- Customer Service and Follow-up Management

Quality certificates awarded to our company.

Products Range

Aluminum Pilfer Proof Caps 28/22 mm

Our metal caps are made from 99.99% pure aluminum for pharmaceutical and food applications. These materials are sourced from the world's most trusted aluminum manufacturers. We manufacture them to the highest international quality standards.

**Phase One , from aluminum sheet to Hat Cap
Pilfer Proof (Hat Cap -HCPP)**

**Phase Two, from Hat Cap to Middle Cap of
Pilfer Proof (MCPP)**

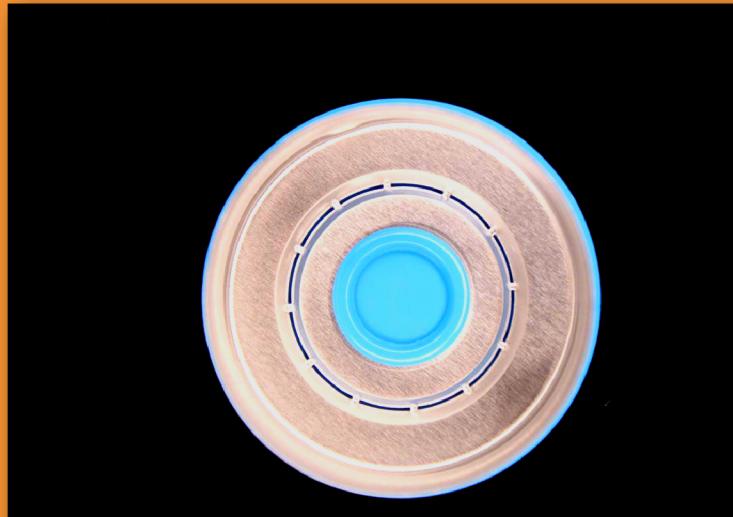

Products Range

Flip-Off for Vial 20-32 mm

Our caps are made from a combination of the highest-purity aluminum, A8011 (99.99%), and the finest polypropylene for the pharmaceutical industry.

We manufacture according of highest standards of sterilization (using gamma rays) and the finest pharmaceutical-grade quality standards.

Products Range

Pilfer Proof Plastic caps

We select the highest quality plastic materials from the most prestigious international manufacturers, in order to provide the best product such as a 28 mm closure cap.

Hanger for Vial

We select the highest quality plastic materials from the best global manufacturers to provide the best holder for hanging intravenous medications for medical use.

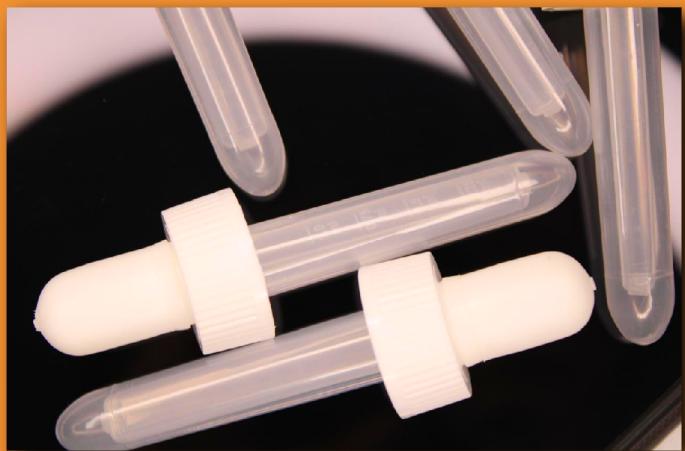

Products Range

Oral Dropper 22mm

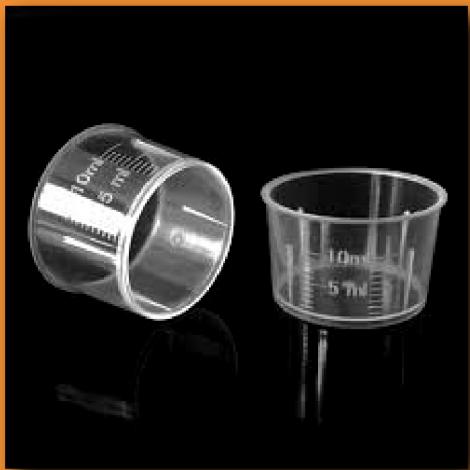

We select raw materials from the best global suppliers, and the highest quality raw materials meet the highest standards for medical use, to manufacture the best oral dropper for oral medications.

Oral Dropper 28mm

Our company can't stop developing its products and categories, so it has added a new product, the 28mm oral dropper for oral medication, assembled in three pieces.

Dosage Cups

A dosage cup is a small, graduated container for accurately measuring and administering liquid medicines, marked from 2.5 ml to 20 ml, matching specific medicine use, manufactured from high-quality polypropylene.

Our new products

CRC CAP 28 mm

4-piece CRC cap for oral medication (outer cap - inner cap with safety lock - outer safety ring - inner seal) suitable for 28 mm neck
